

Cookie policy

This Cookie Policy explains how cookies and similar technologies are used on mygaru.com, the public website operated by **myGaru OÜ** (registered in Estonia, Harju maakond, Tallinn, Kesklinna linnaosa, Pärnu mnt 105, 11312). It applies to this website only.

Two points of scope are important:

The myGaru platform (the identity, data-collaboration and advertising services provided to businesses) is a separate environment. The contractual terms for the platform are set out in the [Terms of Service](#), and the processing of personal data through the platform, and through myGaru's role as a registered advertising-technology vendor, is described in the [myGaru Privacy Policy](#).

Cookies and similar storage that myGaru sets in its capacity as a registered vendor under the IAB Europe Transparency and Consent Framework (TCF) operate in the advertising context on the digital properties of myGaru's partners and publishers. They are not set when you browse this website. Those technologies are declared in myGaru's TCF Device Storage Disclosures, published at <https://mygaru.com/.well-known/deviceStorage.json>, and are explained in the [myGaru Privacy Policy](#).

myGaru's approach to cookies on this website

mygaru.com does not use cookies for analytics, advertising or tracking, and it does not profile its visitors. The website's own code sets no cookies and runs no analytics, tracking or advertising scripts.

The only cookies that may appear when you use this website are strictly necessary (security and integrity) cookies set by the third-party infrastructure providers that host and protect the site. These are described below. Under the ePrivacy rules, strictly necessary cookies do not require consent, but myGaru discloses them here for transparency.

Cookies present on this website

Cookie	Set by	Category	Purpose	When it appears
__cf_bm	Cloudflare	Strictly necessary	Bot management and protection	All pages
_cfuvid	Cloudflare	Strictly necessary	Security and rate-limiting	All pages
cf_clearance	Cloudflare Turnstile	Strictly necessary	Completing the anti-bot check	Pages that require a form
player_clearance	Vimeo	Strictly necessary	Secure operation of the video player	Only when an embedded video is played
cf_clearance	Vimeo	Strictly necessary	Secure operation of the video player	Only when an embedded video is played
__cf_bm	Vimeo	Strictly necessary	Player bot protection	Only when an embedded video is played
_cfuvid	Vimeo	Strictly necessary	Player security	Only when an embedded video is played

The Vimeo cookies appear only if you start playing an embedded video. The embedded players are configured with Do Not Track enabled, which disables Vimeo's tracking and viewing-analytics cookies.

Information sent to third parties without cookies

Some features of the website cause your browser to contact third-party providers, which receive technical connection data even where no cookie is set:

- Cloudflare (hosting and security) processes your IP address and request data in order to deliver and protect the site.
- Vimeo (embedded video): on pages that contain a video, loading the player causes your browser to send your IP address, browser information (User-Agent) and the address of the page to Vimeo, whether or not you press play.
- The website's fonts are served by myGaru itself and are not loaded from a third party.

Managing cookies

Most browsers let you block or delete cookies through their settings. Because the cookies above are strictly necessary, blocking them may prevent parts of the website from working, including the contact form and embedded video. Guidance on managing cookies is available in your browser's help pages.

Changes to this Cookie Policy

myGaru may update this Cookie Policy from time to time. Any changes will be posted on this page with a revised "last updated" date.

Contact

Questions about this Cookie Policy can be sent to info@mygaru.com, or by post to myGaru OÜ, Harju maakond, Tallinn, Kesklinna linnaosa, Pärnu mnt 105, 11312, Estonia.
